

LEIPA Light medium CEPI-Code 60

LEIPA Light medium is part of our consistent development of lightweight and resource-saving papers. LEIPA Light medium is a lightweight single-ply fluting based on 100% recycled waste paper and optimal for use in lightweight corrugated board and packaging applications.

Characteristics

- » Good cross directional profiling
- » Grammage choice for optimum suitability

Key Benefits

- » Smooth runability
- » Resource conserving use of raw materials, at the same time optimum strength properties
- » Encourages efficient corrugated production

Typical Applications

- » Ideal for use with microflutes
- » Part of a consistent reduction of raw materials and improvement of the Carbon footprint

Properties	Unit	Standard	Target Figures				Tolerances
Grammage	g/m ²	ISO 536	75	80	85	90	± 3%
Moisture	%	ISO 287	7,5	7,5	7,5	7,5	± 1,5
CMT MD	N	ISO 7263	100	105	121	138	- 10%
SCT CD	kN/m	ISO 9895	1,20	1,35	1,50	1,55	- 0,20

All values are measured under standard climate condition (23°C, 50% RH). Our measurement devices are included within the CEPI cycle.

Carbon footprint

DE

Results by transport scenario 472,0
[kg CO₂/ton of paper]

Based on the EURO-GRAPH / CEPI framework (Status: 2021)
